Chorus: Under the South African skies, I looked in your eyes
And felt the magic between you and I
In the South African world, our heads in a whirl
And with a kiss we gave our romance a try

We walked together on the shore, hand in hand, so close to each other
You looked so gorgeous to me and my heart was convinced that you were my love
Even though I saw no falling star, my wish came true
When I saw how beautiful you are

Chorus: Under the South African skies, I looked in your eyes
And felt the magic between you and I
In the South African world, our heads in a whirl
And with a kiss we gave our romance a try

The moon looked like a smiley to us, it created a setting for a perfect harmony
The breeze and the waves on the shore, combined their noises like a symphony
Even though I found no old horse shoe, my dream came true
At the time that I met you

Chorus: Under the South African skies, I looked in your eyes
And felt the magic between you and I
In the South African world, our heads in a whirl
And with a kiss we gave our romance a try

Bridge: The time flew so quickly and sooner as we thought
We kissed and waved goodbye, remembering how deeply we fell in love

Chorus: Under the South African skies, I looked in your eyes
And felt the magic between you and I
In the South African world, our heads in a whirl
And with a kiss we gave our romance a try

Chorus: Under the South African skies, I looked in your eyes
And felt the magic between you and I
In the South African world, our heads in a whirl
And with a kiss we gave our romance a try
