When you're broken down
And there ain't no one around
Remember, you can lean on me

When you're feeling low
And there is no place to go
Remember, you can lean on me

Chorus: When the sun goes down and the night gets dark
 I will light your world with a little spark
 I will be your guide and help you on your way
 When the storm is rough, I will shelter you
 When you're feeling cold, I will comfort you
 Remember, you can lean on me

If your life's a misery
And you need a crutch to lean
Remember, you can lean on me

If the blues has started
And it left you brokenhearted
Remember, you can lean on me

Chorus: When the sun goes down and the night gets dark
 I will light your world with a little spark
 I will be your guide and help you on your way
 When the storm is rough, I will shelter you
 When you're feeling cold, I will comfort you
 Remember, you can lean on me

Bridge: You can always lean on me
 You can always lean on me

Chorus: When the sun goes down and the night gets dark
 I will light your world with a little spark
 I will be your guide and help you on your way
 When the storm is rough, I will shelter you
 When you're feeling cold, I will comfort you
 Remember, you can lean on me
 Remember, you can lean on me
 Remember, you can lean on me
 Always lean on me
